## Data subscriptions for real-time prices

We trade all equities on actual market data from the stock exchanges. To receive and trade on real-time market data, you will have to subscribe independently to the individual exchange via third-party providers. An online subscription tool is available on the trading platform. In the tool, you will find a list of available exchanges and news services alongside the applicable monthly fees. You will be able to subscribe to and unsubscribe from services of your choice. Further information can be found in the subscription tool guide, which is also available on the trading platform.

With a Level 2 price data subscription, you can see live streaming prices as with a level 1 subscription. In addition to this you can see the market depth of bid/offer prices and the amounts available at each price point.
